PROFILE

AI & Data Science student at aivancity (Paris-Nice) with strong hands-on experience in machine learning, automation, and data-driven projects. Motivated to apply AI to real-world business and technical problems through an alternance. Fast learner, autonomous, and comfortable working in teams on end-to end projects.

EDUCATION

Aivancity – Grande École de l’Intelligence Artificielle et de la Data 2023 – 2028 (ongoing)

- Master’s Degree in Artificial Intelligence & Data Science

International Baccalaureate – Mathematics — 2023 - Lycée Menzel Jemil, Bizerte 2022-2023

PROFESSIONAL EXPERIENCE

Data & AI Intern – WELL PACK (Paris) April 2025 – July 2025

- Developed an end-to-end machine learning automation to predict the optimal time for sending commercial SMS, based on clickability and behavioral features, from data processing to deployment.
- Worked in a team of 4 to deliver a production-ready solution, including a user interface and a video demo explaining the system.
- Built and automated AI agents (Email Assistant, Pipedrive CRM Agent) to streamline email drafting, lead management, and CRM workflows.
- Gained hands-on experience with Python, Java, Docker, HTML, APIs, and automation in a real business environment.

AI Clinic Projects – Aivancity 2023 – 2025

- Improved voice recognition performance for the **Pitchboy** application using AI-based techniques.
- Conducted data scraping and analysis to recommend the most suitable CRM solution for **Shift Technology**.
- Strengthened skills in AI prototyping, data analysis, and collaborative problem-solving.

Content Creator & Integrator Intern – Naimrod (Paris) May 2024 – July 2024

- Created and integrated 1,427 grammar-focused MCQs into an educational platform for teachers.
- Used CMS tools to ensure content quality, consistency, and scalability.
- Collaborated with a multidisciplinary team to deliver high-value educational content.

TECHNICAL SKILLS

- Programming & Scripting: Python (advanced), Java (intermediate), SQL
- Machine Learning & Data: Supervised learning, feature engineering, model evaluation, data preprocessing, automation pipelines
- AI Systems & Automation: AI agents, workflow automation, predictive systems, API integration
- DevOps & Tools: Docker, Git, CRM systems (Pipedrive), CMS platforms
- Web: HTML
- AI / Data: Machine Learning, Data Analysis, Automation
- Tools: Docker, Git, CRM tools (Pipedrive), CMS

LANGUAGES

- Arabic: C2
- English: C2
- French: C1
- German: B1

LEADERSHIP & VOLUNTEERING

- President of the BDE (Student Council) at aivancity
- Member of O cœur de la rue (Paris): food preparation & distribution
